**Moderator:** Janine Halder, FFG

### Summary

In recent years, a series of initiatives and regulations have been adopted at EU level that are intended to contribute to climate neutrality. Two examples are the Taxonomy on Sustainable Finance and the Corporate Sustainability Reporting Directive (CSRD).

In this webinar, three Taftie agencies will present how they use these legislative measures for different purposes: to prioritise strategic measures, to assess and measure the climate impact of their funding activities and to initiate organisational change in preparation for CSRD reporting.
